Forecast for Sunday 14 Jul 2024

Weather: Cloudy with patchy rain overnight and on Sunday morning. Rain more persistent over fells closer to M6. Best of the drier weather will be hills west of Windermere. Drier weather will extend to all ranges in the afternoon with brighter spells developing, especially in the west.

Chance of cloud-free hill tops above 800m: 40% in the morning, improving 70% during afternoon.

Low cloud and visibility: Banks of cloud above about 500 to 600m, most extensive in east of area, lifting and breaking up later in afternoon and evening. Misty conditions in rain, otherwise good visibility beneath the cloud.

Meteorologist's View

Nothing to add.

Forecast for Monday 15 Jul 2024

Weather: Mostly dry morning with sunny spells. Some patches of mist and low cloud in the valleys at first. Clouds will build later in the morning with scattered heavy, slow moving showers breaking out in afternoon, especially east of National Park. Small risk of thunderstorms. Showers dying away during evening.

Maximum wind: Light winds at all levels.

Chance of cloud-free hill tops above 800m: 80% in the morning, reducing 50% in afternoon.

Low cloud and visibility: Generally good visibility with occasional cloud cover developing around 800 to 900m. Marked reduction to poorer visibility as showers come along with clouds lower down the hills.

Temperature: **Valleys:** 9 Celsius rising to 21 Celsius.
At 800m: Plus 10 Celsius.
Freezing level: Well above the tops.
